SHRUTIKA PATIL

shrutikayogeshpatil@gmail.com | +91 84215 72603

SUMMARY

AI & Data Science undergraduate with hands-on experience in data cleaning, data preprocessing, exploratory data analysis (EDA), data visualization, and business performance analysis. Proficient in Python, SQL, Pandas, NumPy, Excel, and Power BI, with knowledge of statistical analysis, KPI tracking, dashboard development, trend analysis, and data-driven decision-making. Experienced in analyzing marketing performance metrics, identifying actionable insights, and communicating findings to support business objectives. Familiar with Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), and Agentic AI. Strong analytical thinking, problem-solving, and data interpretation skills, with a focus on transforming raw data into meaningful business insights.

SKILLS

- **Languages** Python
- **Data Analysis & Manipulation** Pandas , NumPy, Data Cleaning, Exploratory Data Analysis (EDA)
- **Data Visualization & BI** Microsoft Excel, Power BI, Matploylib, Seaborn
- **Database & Querying** SQL, MySQL
- **Analytical Concepts** Descriptive Statistics, Trend Analysis, KPI Reporting, Data Driven Decision Making.
- **Tools** Jupyter Notebook, VS Code, Git, GitHub

EDUCATION

Bachelor of Engineering in Artificial Intelligence & Data Science Expected may 2028

Savitribai Phule Pune University (SPPU) *Pre-final year (3rd Year)*

Pcet's Nutan Maharashtra Institute of Engineering & Technology, Pune

- SE SGPA: 8.3 | Honours Specialization: Agentic AI

WORK EXPERIENCE

Business Intelligence & Data Analysis Intern July 2026 - October 2026

Triverse Solutions Private Limited

- Engineered a Python-based data cleaning workflow using Pandas to prepare social media campaign data for analysis.
- Evaluated digital marketing performance across key engagement metrics, including reach, impressions, engagement rates, shares, and saves.
- Built Power BI visualizations to uncover engagement trends, compare campaign performance, and drive data-informed decisions.
- Transformed social media metrics into actionable insights using Excel and Meta Business Suite to assess content effectiveness.

CERTIFICATES

Intel® Unnati Industrial Training 2025 October - December 2025

Intel & EdGate Technologies

- Completed hands-on industrial training focused on Generative AI, Retrieval-Augmented Generation (RAG), NLP, semantic retrieval, and prompt engineering.
- Worked on a Multilingual NCERT Doubt-Solver using an OPEA-based RAG pipeline.

LEADERSHIP & POSITIONS OF RESPONSIBILITY

President | Student Association of AI & DS - NMIET July 2025 - present

- Drive AI/DS initiatives focused on analytical problem-solving, technical innovation, and data-driven thinking.
- Spearhead technical competitions, ideathons, and project showcases, fostering applied problem-solving and innovation. Lead cross-functional teams and industry collaborations to execute technology-driven initiatives end to end.

R&D Head | IEEE Systems , Man & Cybernetics Society - NMIET August 2026 - present

- Drive research and innovation at the intersection of AI, Data Science, and intelligent systems, translating emerging technologies into practical problem-solving initiatives
